

BABCOCK UNIVERSITY

COURSE OUTLINE

SCHOOL: Science and Technology

DEPARTMENT: Basic Sciences

SECOND SEMESTER /SESSION: /2016/2017

COURSE CODE AND TITLE: MATH 208: Real Analysis 1

DAY OF CLASS: Tuesday & Thursday

NO OF UNITS: 3

VENUE FOR CLASS: E001

TEACHER'S: NAME: Ayinde, S.A

OFFICE ADDRESS: SAT C114

TELEPHONE NO: 08056131809

EMAIL ADDRESS: ayindes@babcock.edu.ng

OUR VISION STATEMENT

A first-class Seventh-day Adventist institution, building servant leaders for a better world

OUR MISSION STATEMENT

Building leadership through Christian education; transforming lives, impacting society for positive change

To achieve our mission, we are committed to:

- Achieving excellence in our teaching, research program, and service delivery
- Imparting quality Christian education
- Instilling Christ-like character to the members of our Community

OUR CORE VALUES

- Excellence
- Integrity
- Accountability
- Servant Leadership
- Team Spirit
- Autonomy and Responsibility
- Adventist Heritage
- Our Culture
- Our Promise
- Our Moral
- Our Strength
- Our Dignity
- Our Passion
- Our Commitment

OUR PHILOSOPHY

Babcock University's philosophy is anchored on the harmonious development of the intellectual, physical, social, and spiritual potentials of our students, inspiring stable and noble character needed for effective leadership and service in the society.

CORPORATE IMAGE STATEMENT: A center of excellence for character development and scholarship; a socially responsive, responsible, and accountable institution in matters of commitment and action.

COURSE DESCRIPTION:

The course teaches sets, functions, completeness axiom, upper and lower bound of real numbers, sequences of real numbers and convergences through the concepts the infimum,

supremum, maximum and minimum. Tests for convergence of sequences like comparison test etc. Monotone sequences, nested interval theorem Cauchy and squeeze theorems are treated. Students are meant to understand continuity and differentiability of function in \mathbb{R} . Team spirit is taught through copious assignment given.

COURSE CONTENT:

Introduction of basic concepts of sets: finite, infinite, countability. etc. Basic concepts of functions

Construction of real numbers from rational numbers by using Dedekind's cut and other results

Bounds of real numbers and the concepts of maximum and minimum, Infimum and supremum alongside some notable results

Completeness axiom: completeness of real numbers and incompleteness of rational numbers.

Monotone sequences

Cauchy sequences and test for convergence

Continuity and differentiability of function of \mathbb{R}

Rolle's and mean value theorems for differentiable functions. Taylor series

COURSE OBJECTIVES:

At the end of the course student should be able to:

- ✓ prove results on finites, infinite, countable and uncountable sets
- ✓ construct real numbers from rational numbers
- ✓ use concepts of infimum and supremum to explain completeness axiom
- ✓ solves problems on monotone and Cauchy sequence
- ✓ explain the concepts of continuity and differentiability of function of real variables and other theorems on the differentiability of real function

REQUIRED TEXTBOOKS/JOURNALS

Olubunmo, A., Introduction to Real Analysis, University Press, Ibadan.

COURSE REQUIREMENTS:

CLASS ATTENDANCE: - "Every student is required to attend classes regularly and punctually, unless ill or prevented by some recognized emergency. Students who absent themselves from class for more than three weeks during the semester shall merit an F grade. Authorized leave of absence from campus does not excuse the student from classes, or relieve the student of the required course work" (*BU Academic Bulletin 2012-2015 p.13*).

PARTICIPATION: -Students are to actively engage in topic discussion and sharing of ideas in class.

TARDINESS/CONDUCT OF STUDENTS IN CLASS: - Lateness to class is unacceptable; students are not allowed to operate their cell phones, iPods and other electronic mobile gadgets during classes, except with the permission of the teacher. Eating and chewing off bubble gums and drinking (water exempted) is also not allowed except with the permission

of the teacher. Very importantly, students are required to dress in compliance with the university dress code and wear their identity cards while in class.

SHORT DEVOTIONALS/PRAYER: - Spiritual nurture is a part of whole person development, and team spirit is our strength; thus, every student is required to participate in the devotional exercise and prayer in class.

SUBMISSION OF ASSIGNMENT: As the teacher wishes to receive the assignments with the regulations of the Academic Bulletin.

LATE ASSIGNMENTS: Assignments could be turned in earlier, but not later than the deadline set by the teacher.

GUIDELINE FOR WRITTEN WORK: Teacher should determine the guidelines.

ACADEMIC INTEGRITY/HONESTY:“Babcock University has a zero tolerance for any form of academic dishonesty. Morally and spiritually, the institution is committed to scholastic integrity. Consequently, both students and staff are to maintain high, ethical Christian levels of honesty. Transparent honest behavior is expected of every student in all spheres of life. Academic dishonesty include such things as plagiarism, unauthorized use of notes or textbooks on quizzes and examinations, copying or spying the test or paper of another student (formal or take-home), talking to another student during examinations. Academic matter would automatically result in a failing grade for the examination, and suspension, or outright dismissal from the university. Academic dishonesty issues are referred to SPEAM (Senate Panel on Examination and Academic Misconduct) who investigates and makes recommendations to Senate. Penalties for examination and academic misconduct are spelt out in the *student’s handbook* and in other regulations as published from time to time” (*BU Academic Bulletin2012-2015 p.18*).

GRIEVANCEPROCEDURE

“Studentswhobelievethattheiracademicrightshavebeeninfringeduponorthattheyhavebeenunjustly treated with respect to theiracademicprogramareentitledtoafairandimpartialconsiderationoftheircases.Theyshoulddothefollowingto effect a solution:

- 1.Presenttheircasetotheteacher(s)concerned
- 2.If necessary, discuss the problem with the Head of Department
- 3.Ifagreementisnot reached at this level, submit the matter to the School Dean
- 4.Finally, ask for a review of the case by the Grievance Committee
5. A fee is charged for remarking of scripts. If a student’s grievance is upheld after an external examiner has remarked the script, the grade would be credited to the student. The lecturer will be given a letter of reprimand and will be asked to refund the fees to the student. If the student’s grievance is not sustained, the student will be given a letter of reprimand and the original grade retained” (*BU Academic Bulletin2012-2015 p.18*).

TEACHING/LEARNING METHODOLOGIES: Teachers are to determine their strategies for teaching their students. However, interactive strategies are encouraged, and there should be integration of faith and BU core values in the learning process.

In adherence to Babcock University core value for course delivery, the following methodologies are adopted.

Well-structured instructions
 White board & marker and projector
 Students- teacher interaction
 Direct Instruction.
 Guided Inquiry.
 Discourse.
 Cooperative Learning.
 Problem-based Learning.
 Visual Representations and Concrete Models.
 Assignments

COURSE ASSESSMENT/EVALUATION

Continuous Assessment:

Class Attendance:	5% }	} =40%
Quizzes & Tests:	10% }	
Assignments:	10% }	
Mid-Semester Exam:	15% }	
Final Semester Exam:	60%	

GRADE SCALE

Currently, the 5-point gradingsystemadoptedbythe University Senate translates as follows:

Grades	Marks- Quality	Range Points	Definition
A	80-100	5.00	Superior
B	60-79	4.00	Above Average
C	50-59	3.00	Average
D	45-49	2.00	Below Average
E	40-44	1.00	Pass
F	0-39	0.00	Fail

INCOMPLETE GRADE: An incomplete grade may only be assigned to a student upon request, due to an emergency situation that occurred within that semester, which prevented completion of an/some assignments, quizzes, or examination. Such a student would complete a contract form, obtainable from the Registrar, after agreement with the teacher. The form must be signed by the teacher, the student, the HOD, the dean, the Registrar, and the Senior Vice President (SVP) before contract begins. The original copy of the incomplete form will be sent to the Registrar with copies to the teacher, the student, the HOD, the dean, and the SVP. An incomplete grade(I) reverts to the existing grade if contract is not completed by the end of the following semester (including summer semester, except for examinations), (*BU Academic Bulletin 2012-2015 p. 20*).

FURTHER READINGS:

STUDENTS WITH DISABILITY

“Babcock University seeks to provide a conducive environment for optimal living and learning experience. While the university is working towards facilities that accommodate persons with disabilities, provisions will be made for students with disabilities under the following conditions. Students with disabilities are to:

- a. Report to Student Support Services for assessment, and obtain a clearance/recommendation at the commencement of the semester or as soon as disabling incidence occurs
- b. Show the clearance/recommendations to relevant university officials at the commencement of the semester or as soon as disabling incidence occurs
- c. Maintain ongoing contact with Student Support Services” (*BU Academic Bulletin 2012-2015 p. 20*).

PROPOSED DAILY/WEEKLY OUTLINE OF SCHEDULE:

WEEK	DATE	TITLE	CLASS ACTIVITIES	ASSIGNMENT S DUE
1	Jan.,9	Devotion. Discussion of course outline and introduction.	Questions and answers.	
2	Jan.,16	Introduction of basic concepts of sets: finite, infinite, count ability. etc. Basic concepts of functions	Exercise	
3	Jan.,23	Construction of real numbers from rational numbers by using Dedekind's cut and other results	Exercise	
4	Jan., 30	Construction of real numbers from rational numbers by using Dedekind's cut and other results	Exercise	
5	Feb.,6	Bounds of real numbers and the concepts of maximum and minimum	Exercise	
6	Feb.,13	Bounds of real numbers and the concepts of maximum and minimum	Exercise	
7	Feb.,20	Infimum and supremum alongside some notable results		
8	Feb.,27	Infimum and supremum alongside some notable results	Exercise	
9	Mar.,6	Completeness axiom: completeness of real numbers and incompleteness of rational numbers.	Exercise	Construct real numbers by using a method different from Dedekind cut.
10	Mar.,13	Monotone sequences	Exercise	

11	Mar.,20	Cauchy sequences and test for convergence	Exercise	
12	Mar.,27	Continuity and differentiability of function of \mathbb{R}	Exercise	
13	Apr.,3	Rolle's and mean value theorems for differentiable functions. Taylor series	Exercise and Revision.
